

## DISTANCE LEARNING

### *Skill Basics in Behavioral Health*

- This is a foundation course that assists students in developing core skills for children's residential care. Students will explore ethics and ethical practices; legal requirements in residential care; boundaries in therapeutic relationships; culturally responsive treatment adaptations; recordkeeping, and documentation practices.

**START: January 12<sup>th</sup>, 2009 - FINISH: May 2<sup>nd</sup>, 2009**

- The very first class is face to face with your instructor
- A 30 hour practicum is also included so that students can apply their newly acquired knowledge.
