

DISTANCE LEARNING

Working with Traumatized Children

- Students will differentiate between types of trauma children experience and how trauma may affect treatment outcomes. Students will learn safe and supportive trauma-informed interventions, as well as strategies to reduce the effects of caregiver fatigue.

STARTING: February 2, 2009 FINISH: April 13, 2009

- The very first class is face to face with your instructor
- A 30 hour practicum is also included so that students can apply their newly acquired knowledge.
