Amanda Marley Bio

Amanda Marley currently holds the board position Member at large instructional. Marley has worked for ASD for 14 years holding the positions officially of secretary and paraprofessional educator. Marley currently works in a Title One preschool and has been a paraprofessional educator for both general education and the listening spoken language program.

Marley started with ASD as a parent volunteer and PTA member. The first part of her career was helping the start of a charter school doing extra duties from BPO, lunch lady, noon duty, nurse, student advocate, or even security. This jack of all trades mentality also shows in Marley's union experience where she has volunteered with various projects such as being classroom aid, first aid trainer, site contact and negotiations team member. Marley is currently on the negotiations team for the second time, advocating for better working conditions and accommodations.
