

Elizabeth Goetz

King Tech High School and
Alaska Middle College School

I started working for the Anchorage School District in July 2019 and I have been a Totem member since November 2019. My previous employment prior to ASD was most importantly a stay-at-home mom and worked part-time as a school bus driver, substitute teacher, school administrative assistant for elementary and secondary, and as office administrator for a Certified Public Accountant. I started working full-time once my boys graduated from school. Prior to having a family, I served as an active-duty military member for the United States Air Force.

My strong hope and desire to become a member at Large - non-instructional, is that I may contribute to maintaining a board with encouraging, positive leadership, open transparent communication, which is representative of all Totem members in our ASD workplace.
