

Tracy Prince is running for the Member at Large, Instructional position on the TOTEM Board. Tracy started working for ASD schools in 2000 as a noon duty at her daughter's elementary school before becoming a one-on-one Special Education paraprofessional in that same school. When that student moved up to middle school, she moved up as well, landing at Romig Middle School where she has chosen to stay.

Tracy knows first-hand what it's like to work directly with our students and in our schools. When elected, she will dive in to see what other TOTEM paraprofessionals are experiencing in their buildings. Tracy will actively seek out what challenges and what successes are happening for others in similar positions and will work hard in this position to make things better for all of us.

Tracy has strong voice and is not afraid to use it to help represent all of TOTEM employees working on the "front lines."
